Subject: Directive to Submit Large Mine Plan, TM Crushing, Talons Cove Pit, M/049/0091, Utah County, Utah

Dear Mr. Baird:

Thank you for submitting the required surety in the amount of \$435,000.00 for the Talons Cove Pit mine. This reflects the existing disturbance created by the Talons Cove mining operation M/49/0091, and it will likely need to be adjusted when the Notice of Intention to Commence Large Mining Operations (LMO) is approved.

The Notice of Intention to Commence Small Mining Operations (SMO) for the Talons Cove Pit, S/049/081, was approved in November 2010 for five acres, but it has expanded to approximately 92 acres. A second SMO for the Talons Cove Ph. 2 Allred Pit, S/049/0087, was approved in February 2012. The Division holds a reclamation surety in the amount of \$26,700.00 for this site. These funds may be transferred and applied to the proposed large mine permit M/49/0091. These two small mine permits will be retired once the LMO is approved and the appropriate surety amount is posted.

**Please submit the revised LMO for the Talon's Cove large mine permit no later than March 26, 2016. At that point, the Division will review it for completeness.**

Please contact April Abate at 801-538-5214 or me at 801-538-5261 if you have questions about this directive. Thank you for your cooperation.

Sincerely,

Paul Baker  
Minerals Program Manager
